Page 23

Exercise A

The CEO is considering installing a sabbatical.

He/she wants to know what other companies
in your industry provide and who, if any of
them, provide sabbaticals and how they
work?

Would you buy the data or do your own survey?

If you do your own, what factors would be important in determining the scope of the survey? What data collection techniques would you use?

> Justine Politice The Politice Advantage, In 200-303-3445 Instantine Company of Com-

Exercise B

The CEO feels that the non-exempt ranges are out of alignment with industry. He/she wants you to do a complete analysis of all of the non-exempt salaries.

Would you buy the data or do your own survey?

if you do your own, what factors would be important in determining the scope of the survey? What data collection techniques would you use?

The Patrice Advantages, in

Page 24

Exercise C

The CEO wants a complete analysis of the executive team's total compensation package (salary, bonus, equity, etc.). He is concerned that the company might be at risk of losing key executive talent to it's competitors.

Would you buy the data or do your own survey?

If you do your own, what factors would be important in determining the scope of the survey? What data collection techniques would you use?

Recognizing & Paying for Performance Requires:

- Clear understanding of job requirements & job expectations
 - by those doing the rating
 - by those being rated
- Ultimate purpose is to direct efforts of employees toward achievement of organization objectives
- Pay delivery systems tie it all together
 - Evolve from company objectives
 - Allow competitiveness
 - Recognize individual contributions

James Palmer The Palmer Advantage, in 464-223-2654

Page 37

What is an incentive?

...any form of variable compensation.

..."Any form of compensation designed to motivate (or, provide incentive for) employees to produce specified outputs or behave in a specified way, and to reward them for having done so."*

Page 40

Exercise #3: How would you solve this business problem?

Our company is doing okay -- \$100M in Revenue with 4.6% net profit, well below average (9-11%) for our industry. We also pay in the average range for our employees -- about the 50th percentile. If we could generate better results, our executive team say they would be willing to pay more - we simply cannot afford to do so. We already have a profit sharing plan in place and, at this point in time, we do not feel it is working very well. Our investors are not happy with our results and, as a result, our stock is performing poorly. Although we have told

AM 251-2616
Indicate Indicates

Page 43

95.9.25

Page 44

959.26

2 Primary Types

- · Non-Qualified (NQ)
- · Incentive Stock Option (ISO)

Primary difference between NQ & ISO: Tax Treatment

- No. 1 of A 11 extraples event the day the stock is purchased. Employee owes tax upon purchase whether or not she selfs the stock and the company can take a tax deduction for the value of the stock when the employees, consultants and members of the board of directors.
- ISO is treated as a taxable event the day the employee exits the stock. Employee can purchase and hold and not pay tax until sold. The company, therefore, cannot take a tax deduction for the value of the stock until the employee sells it. Can only be issued to employees.

Other forms of alook, less commonly used, includ alook grants (gMs), restricted stock, phantom atook, etc.

The Peters Advantage, in

Stock Option Agreement

- Legal document covering details such as:
 - Term: typically 10 years...only if you stay with the company. If you leave, typically term ends either on the last day of employment or 90 days/3months later (depending on the plan and the agreement).
 - Price
 - Vesting

- 1 C . 15

Disability, death, etc.

Jeanne Polente The Painter Advantages, is 400-253-2448 jeptom **S**pakrosselv.com

Page 45

Price

- Stock Options are priced at the "Fair Market Value" (FMV) on the date of the grant
- The FMV for public stock is the price on the open market or stock exchange.
 The FMV for private stock is set by the Board of Directors.
- The value to the employee is that, with a bit of luck and some hard work, the shares will be worth more when the employee sells them at some future date.

Junior Palmer The Palmer Advantess, b 400-253-3454

Vesting...some future date

- "Vested" shares are those that the employee has a right to buy; "Unvested" shares they will have a right to buy at a future specified date if they stay with the company.
- Typically an employee is given a "stock option <u>grant</u>" upon hire. The "grant date" for new hires is typically the date of hire. It could be the date approved by the Board of Directors.
- If an employee receives additional grants after hire, the "grant date" is typically the date approved by the Board of Directors.
- "Stock Options Grants" are contingent upon approval of the Board of Directors. Most of the time this is a rubber stamp but legally only the Board of Directors can give away or sell the stock (or pieces of ownership) of the company.

The Felore Advantage is

Page 46

959.28

Vesting....typical

- 4 years (occasionally 3 or 5 years); Granted 1/1/94;
 25% vested on the first anniversary of the "grant date".
- Monthly thereafter

NOTE: Not always a cliff vest; some companies vest monthly from 1st day.

Granted 10,000 Shares on 1-1-94: NOTE: 10-yr life ends 12/31/2003.

Γ	1-1-95	1-1-96	1-1-97	1-1-98
Γ	2500	2500	2500	2500

Jacob Palmer Res Falmer Advantages for 405-283-3656

Refresh or Evergreen

- Some companies give grants upon hire and rarely afterwards.
- Some companies give grants upon hire and based on performance or some event afterwards discretionary.
- Some companies give grants on a regular basis to assure employees always have an adequate pool of unvested stock. This creates "walk-away value" which can make it difficult for an employee to leave the company because she must leave unvested stock behind.

Granted 10,000 Shares on 1-1-94; 5,000 each year thereafter:

1.44	1-1-68	1-1-07	1-1-86	1/1-89	1140	1-1-01

The Polymer Advantages, in 605-2015-2016 Indirect Opening advances

Page 47

Exercise means "Buy"

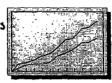

- Most employees buy and sell the same day...usually can only be done in a public company.
- Some employees buy and hold stock...to meet Capital Gains tax requirements.
- If an employee leaves the company, s/he must exercise or buy the stock or lose it...typically within 90 days/3 months of leaving.
 - - » must buy but nowhere to sell.
 - » if NQ, you may owe taxes upon buying and have nowhere to sell.
 - » sometimes, if company agrees, you can buy shares and sell some back to cover tax liability.
 - Public; can buy and sell same day.

Executive Compensation

...Doing the "right" things.

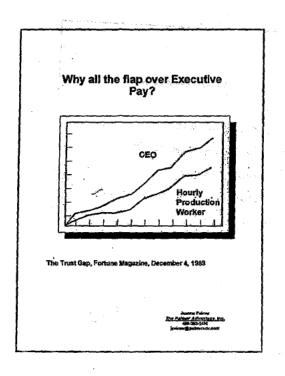

Components:

Purpose of Project

- Formalize current practices
- Provide Managers with greater flexibility in rewarding employees
- Reflect market conditions
- Demonstrate commitment to career growth within LDL
- Ensure equity across functions
 Union/Non-Union positions within company

Creating the Program

- Created steering committee of highlevel managers:
 (Alan Keith, Patty Blau, Gail Currey)
- Developed Compensation Philosophy and Strategy
- Review current structure, job descriptions, and incumbents
- Utilized salary surveys to match positions to market
- Developed recommendations for new salary structure and job placements

Creating the Structure

- Created job progression levels
- Reviewed with managers where current positions should be placed
- Reviewed current salaries of non-union employees
- Created salary structure
- Placed positions according to market, current salary and equity across functions

959.37

Job Progression Levels

- Created job progression matrix Reflect job levels and career progression
- Entry/Intermediate/Senior/Lead
- Not all job families use all four levels

959.38

Salary Surveys

Currently use the following surveys for comparative market date:

- Radford
- SC/CHIPS
- Specialized Computer Graphics and Entertainment Industry surveys

959139

Salary Grades

- Currently have 22 grades
 Recommendation- reduce to 16 grades
- Create broader bands
- Increase grade differentials

INDUSTRIAL LIGHT + MAGIC COMPENSATION PHILOSOPHY

OVERALL COMPENSATION PHILOSOPHY

Our overall compensation philosophy is to attract and retain top notch and developing talent by combining cash compensation and career opportunity within a highly creative and special working environment. We are committed to building and motivating a team of effective employees who share our values, high standards and integrity. Our goal is to instill awareness, understanding and value to all levels of employees regarding their total compensation package (which includes workplace opportunities, Company provided benefits, as well as pay), while balancing the need to operate within a competitive market pricing structure.

- Our total compensation and benefits package is a balance of opportunity for individual advancement and growth of knowledge, skills and abilities as well as direct pay.
- We offer challenges, opportunities, rewards, and personal development in an informal, apolitical, fast-paced, environment.
- We often recruit unproven talent at rates somewhat below market who progress to average market pay level as we groom and mold their expertise, providing growth opportunities within the organization.
- At times the market requires that we identify and respond to external demand pressures for "hot jobs" that are critical to the success of the organization, paying recruitment/retention rates at or above market.
- We seek to maintain overall parity with Union scale for similar non-union positions, providing some non-direct cash offsets (variable pay, special recognition programs, training and development opportunities, benefits and perquisites).
- We acknowledge an extremely competitive labor market for technology positions in a specialty area where new skill sets are constantly required to keep pace with rapidly evolving technology, and will require a more aggressive compensation package for identified positions.
- Exceptional performance and productivity is rewarded through a combination of efforts including competitive pay levels, opportunities for advancement and/or shortterm incentives.

INDUSTRIAL LIGHT + MAGIC COMPENSATION PHILOSOPHY

INCENTIVES

Short-term incentives (incentive plans of a year or less in duration) will be used to augment the base compensation program. Lucas Digital, Ltd., LLC will focus on three types of Short-term incentive plans.

The first plan is designed to reward successful completion of divisional and company goals on an annual basis. Bonuses will be determined after assessing divisional and overall company performance. If the Company meets less than 85% of its goals for the year, no bonus awards will be paid out for the year.

The second plan is an annual plan for Senior Managers as well as identified key contributors (including Managers/Producers) based on a combination of overall company performance and attainment of financial and non-financial objectives. For these key contributors, this incentive-based pay is intended to focus on key objectives driving the organization.

The third type of Short-term incentive plan is at the discretion of Senior Management to reward exceptional performance at the staff levels.

- Short-term incentives will be used to reward employees for sustained high levels of performance for the purpose of retaining valuable talent.
- Incentives may be paid on the basis of individual or team efforts.
- Incentives may also be non-monetary rewards that reflect the excellent performance of an individual/team. These non-monetary rewards need to be special and seen as a unique recognition award. Non-monetary awards require Senior Management approval and need to be part of the manager's operating budget.
